

Celebrate your skin after spending time in the sun – with the support of MASQUELIER'S® Soléderm® DAILY APRES UV CRÈME.

Professor Masquelier understood the sun debate and developed this solution...

The sun debate

Most of us manage to get out in the sun a little each day – playing in the park with our kids, tossing a frisbee or just rushing from one place to another. A little healthy, sensible sun exposure can be good for all of us, providing essential Vitamin D and helping us feel good – the happy side of outside.

Yet exposure to the sun is also known to cause visible damage. How do we negotiate the advantages on the one hand and the damage on the other? What can we do after we have been in the sun to mitigate the damage – even when we have been as sensible as possible with shirts and sun block and hats?

The sun solution

While we may not be able to offer all the answers, MASQUELIER'S® Soléderm® DAILY APRES UV CRÈME can help repair the visible signs of daily sun damage on skin from the sun when applied regularly after sun exposure.

So celebrate your skin after sun exposure with MASQUELIER'S® Soléderm® AFTER SUN SOLUTION – to optimise your experience please read these tips, advice, interesting facts and directions.

Professor Masquelier dedicated his scientific career to sunshine, nutritional health and OPCs!

Over 65 years ago, Professor Jack Masquelier, ground-breaking nutrition scientist, pioneered research into the effects on the human body of the sun, environment and nutrition. MASQUELIER'S® Soléderm DAILY APRES UV has been developed as a direct result of this research and uses the selected flavanols and polyphenols (MASQUELIER'S® Original OPCs) isolated and developed by Professor Masquelier.

**Soléderm® DAILY APRES UV does not contain UV protection, and is not intended to replace a topical sunscreen. While in/ enjoying the sun, adequate care should be taken to protect yourself from excessive sun exposure.*

EXCLUSIVE DISTRIBUTION IN THE USA:

Frequently asked questions

Q How do I apply MASQUELIER'S® Soléderm® for the best results?

A Apply up to 3 times daily especially after outside exposure. Gently massage MASQUELIER'S® Soléderm® onto face, neck and décolletage.

Q I have sensitive skin. Will MASQUELIER'S® Soléderm® be okay for my skin?

A MASQUELIER'S® Soléderm® is recommended for most skin types, however if you are concerned try doing a small patch test on your wrist and wait 24 hours.

Q Does MASQUELIER'S® Soléderm® offer sun protection like a sun block?

No ... MASQUELIER'S® Soléderm® is a unique formula that is used after sun exposure to help visibly repair the signs of exposure to the sun on skin. It is proven to visibly reduce redness, soothe, moisturize and hydrate to help combat the visible signs of sun damage and premature skin aging after sensible, healthy sun exposure.

Q What other things can I do to reduce sun damage?

A When enjoying spending time in the sun wear a hat and sun block. Long sleeves and pants can also provide protection. Try limiting the time that you spend in the sun and avoid being out in the sun around midday when it is at it's strongest.

Q What makes MASQUELIER'S® Soléderm® work?

A The primary ingredient in MASQUELIER'S® Soléderm® is MASQUELIER'S® Original OPCs. The powerful antioxidants found in MASQUELIER'S® Original OPCs help improve the visible signs of oxidative stress from the sun, helping skin look fresh and smooth.

Q Is MASQUELIER'S® packaging environmentally responsible?

A MASQUELIER'S® Soléderm® packaging is suitable for recycling.
